Salisbury-Spencer, N. C.

The Cities of Progress and Prosperity

PREFACE

It is with pleasure that we present Volume VIII of the Salisbury-Spencer, N. C., Directory. Since our previous issue was made the two cities have taken on new life and shown unquestionable evidence of progress, and the chances are that they will continue to progress and grow; for why should they not? For they have many advantages and things to offer. To the homeseeker they offer beautiful and ideal home sites, and the climate is mild, healthy and invigorating. To the visitor or tourist it is a spot where rest and pleasure both can be had. To the manufacturer they offer all that can be desired, splendid factory sites, ample railroad facilities, good freight rates and no labor troubles. Mr. Manufacturer, Salisbury-Spencer invite you to come and see for yourself.

As a rule, you can generally size up a town by its City Directory, because the Directory alone gives a complete history of the business interests of a city or town; in the Directory you will find listed the varied enterprises of a city, be they large or small; in the Directory you will find the name of most every person from the hovel to the mansion, and can determine the character of citizenship.

We have endeavored to give to the public, not only a Directory, but one which is in keeping with the surroundings and the progress of the cities.

The world is a great storehouse from which we can take out no more than we put in, and for the liberal support we have received and the courtesies shown our representatives, we have striven to return in proportion our best services. While no Directory is perfect, we believe that the Salisbury-Spencer Directory comes as near as any in being so, and will fully meet all the requirements.

Giving Names of Householders and Denoting Business Places

VOL VIII — THE PIEDMONT SERIES — 1924-25

NOTE—All streets and Avenues are arranged in alphabetical order, the house numbers are arranged in numerical order with names of householder after each number.

Dash (—) before name denotes that number is wanting.

(*) Purpose of star (*) in front of name is to denote colored person or firm, but we assume no responsibility for it's wrong use, errors often creep in.

Advertise--Efficiency

¶ China built a great wall to shut out new ideas and modern business methods out of the country and "withered within."

¶ The individual or firm who does not advertise and practice efficiency in their business will reap China's reward.

¶ "Efficiency" no business can possibly be run on modern methods without the use of the "City Directory."

¶ "Advertise;" the City Directory is the only medium whereby all the people can be reached some of the time; it is a salesman that stays on the job.

¶ Own and advertise in your City Directory.

Who Is Your Competitor?

What competition do you fear most? The competition from a store which advertises, or the other kind?

Directory advertising—regular advertising—is a vital part of the sales effort of aggressive, optimistic firms. For business enterprises in which such an advertising policy prevails, the outlook is always rosy.
